

Mid-Missouri Radio Control Association

Mowing Requirements

In order to keep the field maintained members are required to take a turn mowing, or they have the option of opting out for a fee. The mowing season will run from March to October or as otherwise determined by the Field Marshal. Mowing will include but not be limited to the following areas: Flying Field, Pit Area, Helicopter Circles, Pavilion and Spectator Areas, both sides of the fence, along each side of the drive, and weed whipping these areas.

When joining or renewing club membership the member will have the option to mow or opt out of mowing for a fee of \$115. This fee will be collected with the membership dues and field maintenance fee at the time of sign-up. New members that join after July 1 or before Oct 1 will have the option to mow or opt out for \$75. New members that join after Oct 1 will have the option for the following year.

The Field Marshal will be in charge of assigning members to the mowing dates and will notify the member when it's their time to mow. Members may request a date that they would like to mow but only at the time of sign-up. If there is a conflict with the date the member is to mow the member must contact the Field Marshal at least 1 week in advance so a replacement can be found and another date assigned. The mowing schedule is to be posted on the club website and at the club field. This schedule will be kept up to date at both locations as changes are made.

Other than weather related, or extenuating circumstance if the member does not mow when scheduled they will forfeit their right to any reimbursement and will be assessed the \$115 opt out fee. Membership will be revoked if the opt out fee is not paid. Said member will not be allowed to re-join the club until the outstanding balance is paid. If weather related and no re-scheduling is available to the member then the member does not have to pay opt out fee and is not entitled to any reimbursement.

All money collected from those members that opt out of mowing will be reimbursed at the end of the mowing season to the club members that mow. The formula for calculating reimbursement is as follows: Money collected, divided by the number of weeks of mowing, equals the dollar amount reimbursed per mowing rounded down to the whole dollar. Any member may mow as many times as they would like and will be reimbursed accordingly. A member may donate their share back to the club.

Any and all exceptions to the above are at the discretion of the Board of Directors.
